

Four-Nozzle Fogger

-  **Save energy:** Forms atomized water droplets at low water pressure for even spraying, efficient cooling and humidifying
-  **Longer Lifespan:** Produced by premium engineering plastic which has been special treated with anti-aging and anti-ultraviolet modification, longer service life;
-  **High mold precision:** Beautiful and durable products
-  **Anti-Drip function to protect plants:** The set is equipped with an anti-drip valve to prevent dripping water from damaging the seedlings and soil located below

Application:

-  Cooling and humidifying greenhouses and shade houses,
-  Precision irrigation over rooting tables, delicate flowers, nursery bed plants,
-  Poultry and livestock cooling and anti-epidemic drug spraying
